

[Customer One]

It is that time of year again...

The extreme weather conditions last winter may have caused damage to your Home's exterior. When temperatures fluctuate, surfaces expand and contract, resulting in minor defects such as cracked caulking and loose, peeling paint. That's why it is important to keep up with repairs. There is no such thing as a maintenance free home.

To protect your investment, we offer you the opportunity to join our [Customer One] program, which provides a free inspection of your home and ensures the long life of your paint job. It's as simple as that!

[Customer One] inspection will:

- Determine if your home needs to be washed to retard mildew growth.
- Inspect all painted surfaces for peeling, cracking and/caulk separation.
- Check all of your Home's surfaces for rotten or damaged wood.
- Supply Free written Estimate/Evaluation, if work is required.

Neglected maintenance items will eventually cost you. So, it's important to do Annual Inspections to keep your Home beautiful for years to come. Thank you for allowing us to service your painting needs.

Call today to Schedule your [Customer One] Free Inspection!
